7. Your ideas for supporting PRCs and/or improving parent involvement in Virginia? We will benefit from continued guidance and support from VDOE. We plan to maintain a close working partnership with T/TAC as well. Resource tips and contacts from other divisions are always helpful, particularly when one is just starting as we are here in King William County.

8. Anything else? Thank you to Virginia Department of Education for awarding King William County Public Schools with the initial \$15,000.00 grant and the \$10,000.00 follow-up grant. We welcome thoughts and ideas that will help us to determine exactly how we should expend our funds to support our families!

Thank You!!
